May 14, 2026

Dear JUPAS Applicants,

JS6937 Global Engineering and Business Programme

We are pleased to inform you that, starting from the academic year 2026/27, the existing Global Engineering and Business Programme (GEBP), jointly offered by the Faculty of Engineering of the University of Hong Kong (HKU) and the HKU Business School, will become “fully integrated”, leading to the double degrees of Bachelor of Engineering and Bachelor of Business Administration.

The Global Engineering and Business Programme at HKU now offers full integration across both Faculties throughout the five years of study, providing students with access to extensive learning resources and opportunities. This interdisciplinary programme empowers students to develop the mindset and skills for engineering excellence and business innovation.

GEBP students in the programme benefit from a wide range of opportunities offered by both Faculties. For examples, scholarships (*e.g. FBE Entrance Scholarship for JUPAS Students of the HKU Business School*), exchange opportunities, enrichment activities, career support, etc. All students will be required to complete at least one overseas exchange program prior to graduation. They can also engage in a wide range of experiential learning activities like engineering interest groups, active learning initiatives, business case competitions, and more. The fifth year is offered on self-financing basis, at a slightly higher tuition rate.

GEBP students are eligible to pursue professional accreditation as both engineers and business practitioners. All engineering majors under this programme are accredited by the Hong Kong Institution of Engineers (HKIE). Students of the BBA programme are also eligible to enrol in the CGMA® Finance Leadership Program and kickstart their journey to become a member of Chartered Institute of Management Accountants and a Chartered Global Management Accountant while they are studying in the University. This empowers our graduates to pursue a broad spectrum of global career opportunities.

Interested applicants may update their programme choices via the JUPAS online application system (<https://www.jupas.edu.hk>) free-of-charge for ONCE during the period from May 14-20, 2026 (5:00pm).

For more information about the new GEBP Programme, please visit our website (<https://admissions.hku.hk/programmes/undergraduate-programmes/global-engineering-and-business-programme>) or email us at enggugad@hku.hk

Sign up for our webinar on 15 May 2026 at 5pm (HKT) to learn about important updates and exciting opportunities available.: https://hku.au1.qualtrics.com/jfe/form/SV_9NWGtfAKGP9NaOG

Yours Sincerely,
Faculty of Engineering, HKU
