JUPAS Catalogue No.	JS2020
Programme Full Name	Bachelor of Arts (Hons) (Chinese Language and Literature / Creative and Professional Writing / English Language and Literature / Humanities / Translation) 文學士(榮譽) (中國語言文學 / 創意及專業寫作 / 英國語言文學 / 人文學 / 翻譯學)
Programme Short Name	BA
Short Description	<p>The Faculty of Arts and Social Sciences uses a broad-based admissions system for five programmes, giving students more flexibility. Under the broad-based admissions system, students will spend their first year of study exploring different Arts disciplines. Then, towards the end of their first year, they will choose the Programme they would like to study. The broad-based admissions system consists of the following programmes: (1) Chinese Language and Literature, (2) Creative and Professional Writing, (3) English Language and Literature, (4) Humanities, and (5) Translation.</p> <p>(1) Chinese Language and Literature</p> <p>The Programme is committed to providing students with a thorough training in Chinese language, literature, and culture. The acquisition of knowledge and skills of basic research and training in critical thinking enables students to achieve their academic goals, personal growth, and their commitment to lifelong learning and preparation for future careers. This serves the University's common goal of "Whole Person Education", and empowers students to contribute to both the local and international communities.</p> <p>(2) Creative and Professional Writing</p> <p>The Creative and Professional Writing Programme of HKBU is the first UGC-funded undergraduate programme among Hong Kong tertiary institutions dedicated to creative and professional writing in both Chinese and English.</p> <p>The Programme emphasises the following general aims:</p> <ul style="list-style-type: none">• To provide students with a vigorous curriculum to develop creative and professional writing skills in Chinese and English;• To develop students' abilities when writing professionally in different genres and contexts to enhance students' career opportunities;• To cultivate students to produce original works of fiction, poetry, or nonfiction;• To enhance students' cultural literacy which would act as a solid basis for their creative and professional writing;• To build up their knowledge for self-directed and life-long learning in the world of professional writing and publishing. <p>(3) English Language and Literature</p> <p>This Programme offers excellent opportunities for students to develop their disciplinary knowledge in English language and literature with a cross-cultural perspective; written and verbal communication skills; critical thinking skills and appreciation of creative writing; leadership skills and teamwork techniques; awareness of international values, including overseas study and/or work experience.</p> <p>(4) Humanities</p> <p>The first and unique undergraduate programme in Hong Kong to offer a broad liberal arts education, the Humanities programme dedicated itself to training students to think critically and creatively, to write logically and speak confidently, to sympathise with humanity, and to appreciate life.</p> <p>Our teaching staff profile includes renowned scholars and emerging young ones. Our programme continues to be distinguished by the three pillars of interdisciplinarity, bilingual teaching and learning, and cross-culturalism. Based on these unique strengths, our programme is marked by three Cs:</p> <ul style="list-style-type: none">• "Creative": Students of Humanities will develop and defend the freedom of mind;• "Cultural": They will learn both classical and contemporary cultures;

- “Critical”: They will appreciate diverse perspectives.

(5) Translation

The Translation Programme aims to “educate bilingual and bicultural communicators for professional translation and language careers”. Teachers of the Department of Translation, Interpreting and Intercultural Studies share with students their expertise in academic research, their experience of frontline fieldwork in interlingual and intercultural communication, and their pedagogic vision. Students are thus prepared to meet the cultural, socio-political and economic needs of the local community, as well as those of a rapidly developing China. The Programme provides a strong mix of both academic intellectual training and professionally-oriented practice. It offers a range of specialist options such as Translation Technology, Localisation, Spanish-Chinese Translation, Media Translation, and different forms of Interpreting.

In their final year, all students undertake a one-year Honours Project. This involves an extended translation of 10,000 words, plus critical commentary, or alternatively a research project of similar length. The Programme also incorporates a one-semester project-based internship.

Unique Features

Only Faculty of Arts and Social Sciences offers Double Major Programmes in Hong Kong Baptist University. Student may choose to take a Double Major Programme which consists of two Majors in one Bachelor's degree. Student can choose any two Majors from (1) Chinese Language and Literature, (2) English Language and Literature and (3) Religion, Philosophy and Ethics or Double Major in Translation and English Language and Literature.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Student can join the internship programmes and exchange programmes organised by the University.

Apart from University's programmes, some programmes offer Internship to their students, such as Creative and Professional Writing Programme offers writing internship to their students.

In addition to the internship and exchange programmes, some Programmes will organise study tours to broaden students' horizons. For example, Humanities Programme has organised summer study tours to Tsinghua University and Shaanxi Normal University, etc.

Career Opportunities

Administration, education, publishing, media, public relations, marketing, social service, culture and arts, etc.

Admissions Scholarship

To award outstanding HKDSE students admitted to the Faculty, the Faculty offers a scholarship starting from the 2024 intake:

JOINT UNIVERSITY PROGRAMMES ADMISSIONS SYSTEM
2025 Application for Admission
Hong Kong Baptist University - Programme Information

Sum of HKDSE Score (Best 5 subjects)	Amount of Scholarship
26 or above	Full scholarship (one-off, 100% of the first-year tuition fee)
25	Half scholarship (one-off, 50% of the first-year tuition fee)

Please refer to [the website](#) for more details.

Remarks

Programme Website

<https://fass.hkbu.edu.hk/study/prospective/undergraduate>

General Entrance
Requirements

Core Subjects	Minimum Level
CHINESE LANGUAGE ^{Note1}	3
CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE ^{Note2}	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website:

https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:
Attained with Distinction (II) =4, Attained with Distinction (I) =3
- The scores for Category C subjects are converted as follows:

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. JOINT UNIVERSITY PROGRAMMES ADMISSIONS SYSTEM
2025 Application for Admission
Hong Kong Baptist University - Programme Information

JUPAS Catalogue No.	JS2025
Programme Full Name	Bachelor of Arts (Hons) in Religion, Philosophy and Ethics 宗教、哲學及倫理文學士(榮譽)
Programme Short Name	BA(RPE)
Short Description	<p>This interdisciplinary Bachelor of Arts (Hons) in Religion, Philosophy and Ethics Programme provides an excellent opportunity to study major world religions, philosophical traditions, and ethical schools of thought in a systematic and critical way. Students will develop a capability in correlating religious ideas and values, as well as philosophical and ethical thought with both the personal quest for meaning in life and the reflection of contemporary socio-cultural issues, such as life and death, gender equality and social justice. They can understand more about the human person itself and human culture through a comparative and interdisciplinary study of different religious and philosophical traditions, showing the vast range of human response to various life problems, such as life and death, meaning of life, and social justice from ancient times to the contemporary world.</p>

Unique Features

First Religion, Philosophy and Ethics Programme in Hong Kong

The programme, specialising in three different but closely related disciplines of religion, philosophy, and ethics, is the first-of-its-kind in Hong Kong. Religion, Philosophy and Ethics (RPE) is a multidisciplinary programme and in fact one of the flourishing programmes in the international trend in recent decades. Examples include the RPE programme at King's College London and University of Nottingham in the UK.

Four Study Areas

Foundational courses covering key areas of religion, philosophy and ethics are covered in the first and second years. In their third to fourth years, students can choose major electives among the four study areas, namely Philosophical Studies, Christian Studies and Comparative Religion, the Interdisciplinary Study of Religion, as well as Ethics and Society. The multiple foci of the programme would be able to cater for the diverse interests of students. Students can choose to declare or not a concentration in one of the four study areas at the end of their second year of study.

Critical Thinking

We emphasise nurturing students' abilities in critical thinking, formulating cogent arguments and critically evaluating claims, all of which helps to enhance their reasoning and analytical skills. These are transferable skills which are essential to many professions.

Value Analysis

We emphasise the analysis of underlying moral values, social values, political values and cultural values in current issues, which are diverse, complex and often in conflict with one another. Students are trained to make up their own minds after navigating through a complicated web of ideas.

Excellence in Liberal Arts Education

Our programme provides a channel for achieving the higher goals of liberal arts education, namely, (a) the cultivation of the ability to analyse complex human problems with intellectual rigor, and (b) the cultivation of practical wisdom for moral reasoning and impartial value analysis.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain

in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Summer Internship Programme

The Department organises Summer Internship Programme for our students since 2002 to work in NGOs (Non-governmental Organisations), social enterprises, offices of Legislative Councilors, and institutions from public and private sectors. Students can widen their exposure through working, relate real life to their studies, gain valuable working experience and acquire the ability to identify their career paths after graduation.

Overseas Exchange Programme

Our students have opportunities to study abroad in partner institutions by joining the University's Overseas Exchange Programme. We have established a unique study abroad programme with the Faraday Institute for Science and Religion that students can stay at a college of the Cambridge University for a short-term study.

Career Opportunities

Graduates can choose a career not only in teaching Ethics and Religious Studies (after obtaining PGDE/DipEd from a qualified tertiary institution), but also in cultural affairs, publication business, religion-related social service agencies, administration of the civil service and the business sector.

Admissions Scholarship

To award outstanding HKDSE students admitted to the Programme, the Faculty of Arts offers a scholarship starting from the 2024 intake:

Sum of HKDSE Score (Best 5 subjects)	Amount of Scholarship
26 or above	Full scholarship (one-off, 100% of the first-year tuition fee)
25	Half scholarship (one-off, 50% of the first-year tuition fee)

Please refer to [the website](#) for more details.

JUPAS Catalogue No.	JS2060
Programme Full Name	Bachelor of Arts (Hons) / Bachelor of Music (Hons) (Music / Creative Industries) 文學士(榮譽) / 音樂學士(榮譽) (音樂 / 創意產業)
Programme Short Name	BA/BMUS(MUSIC/CI)
Short Description	<p>The Bachelor of Arts (Hons) in Music Programme provides graduates with a practical and intellectual foundation for careers in music or music-related fields. Students accepted into the Programme study with scholars and teachers in music theory and analysis, composition, music history, music education, and performance. The programme places a special emphasis on the role of technology and computers in various aspects of music, providing students with cutting-edge equipment and facilities. These include the vast array of electronic instruments and recording technology. Performance is an important part of music education at the University. Students participate intensively in solo, chamber and ensemble performance throughout the years of study.</p> <p>The Bachelor of Music (Hons) in Creative Industries Programme offers professional training and new articulation pathway for students with two options: Scoring for Film, Television and Video Games, and Popular Music Performance and Songwriting. Students are given opportunities to study and develop skills in the two areas which aim to nurture their skills, techniques, and creativity in music production for popular music, visual media, music technology, and media production.</p> <p>Unique Features</p> <p>The Bachelor of Arts (Hons) in Music Programme provides graduates with a practical and intellectual foundation for careers in music or music-related fields. In Year 2, students declare their specialties in one of the four Concentrations:</p> <ul style="list-style-type: none">• Composition• Directed Studies• Music Education• Performance <p>Depending on their chosen Concentration, a selection of concentration courses in Years 2 & 3 prepares students for the Honours Project in Year 4, in the format of a composition portfolio, a concerto and recital performance, a lecture-recital, or a written thesis on music history, theory, music education, or music-related topic.</p> <p>Students accepted into our degree programme study with a team of composers, performers, and music scholars who specialise in music composition, music education, keyboard performance, choral and orchestral conducting, Chinese and Western music history, and music theory and analysis. They will also have the opportunity to interact with visiting scholars and artists who come from Hong Kong, China, and many other countries, in seminars, lectures, master-classes, and recitals. The strong emphasis on solo, chamber, and ensemble performance throughout the four years provides our students with a rich experience in practical music making. The programme's emphasis on the role of technology and computers in various aspects of music is supported by cutting-edge equipment and facilities, including the Electro-Acoustic Music Centre (EMC) and the Laboratory for Immersive Arts and Technology (LIATe).</p> <p>The Bachelor of Music (Hons) in Creative Industries Programme provides comprehensive training to aspiring composers, vocalists, and instrumentalists for careers in creative and entertainment industries. Students are given plenty of opportunities to hone their skills in music technology, composition, performance,</p>

production, and entrepreneurship. The programme offers a new career pathway for students with the following two concentrations:

- Scoring for Film, Television and Video Games
- Popular Music Performance and Songwriting

Students in Scoring for Film, Television and Video Games concentration will develop musical skills and knowledge to function as composers, orchestrators, music supervisors, music editors, conductors, and music producers in various entertainment industries. Students in Popular Music Performance and Songwriting concentration will develop capabilities to enter the music industry as performer-songwriters, lyricists, instrumental and/ or vocal performers, arrangers, and music producers.

Within the framework of a liberal arts university, apart from the professional training they receive through their major, students will gain insights into the larger issues of science, society, human community, and global cultures – knowledge that is essential for the education of professional artist-musician in music and media.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Career Opportunities

For the **Bachelor of Arts (Hons) in Music Programme**, graduates have a wide range of employment possibilities in teaching, performance, radio/television, music-related business, arts management and further study.

For the **Bachelor of Music (Hons) in Creative Industries Programme**, graduates will be prepared for a wide range of career opportunities in the creative and entertainment industries, functioning as film and video games composers, songwriters, contemporary music performers, and music producers.

JUPAS Catalogue No.	JS2110
Programme Full Name	Bachelor of Business Administration (Hons) - Accounting Concentration 工商管理學士(榮譽) - 會計學專修
Programme Short Name	BBA(ACCT)
Short Description	The Accounting Concentration provides a balance of breadth and depth in the discipline, with a view of producing accountants with a much-needed analytical and conceptual mind. Accountants are always in strong demand in the business world, and this Concentration is carefully designed to provide students not just with training in accounting, but with multi-disciplinary knowledge, analytical ability, information processing proficiency, communication skills, and a sound liberal education for them to excel in the accounting profession and other business fields.

Unique Features

- A balanced programme providing in-depth accounting training, broad-based business curriculum and a wide range of liberal studies.
- A broad education seeking to build students' analytical ability, information processing proficiency and communication skills.
- Professional recognition from the Hong Kong Institute of Certified Public Accountants (HKICPA), Association of Chartered Certified Accountants (ACCA), Chartered Institute of Management Accountants (CIMA), CPA Australia, Association of International Accountants (AIA), and CMA Australia.
- A special programme of summer classes is available to allow BBA (ACCT) students to join full-time semester-long spring internships with Big4s and other well-known CPA firms, or overseas exchanges without having to delay their graduation.
- Plenty of scholarship awards available exclusively to BBA (ACCT) students.
- Additional graduation options include a Double Concentration within the BBA, or a Minor in a non-business discipline.

Two Cities, Two Degrees in Four Years

Double Degree Programme with NEOMA Business School

Students accepted to the programme will earn two degrees by spending the first two years in HKBU BBA and the final two years in [NEOMA Business School \(NBS\)](https://bba.hkbu.edu.hk/be-global/hkbu-nbs-2-2-double-degree-programme.html) in France. French courses and 6-month internship opportunities will be offered to help students further immerse in French culture and develop business networks. Participants are expected to expand their global vision and fully equip themselves in the job market upon completion of the programme. For more details, please visit: <https://bba.hkbu.edu.hk/be-global/hkbu-nbs-2-2-double-degree-programme.html>

Double Degree Programme with the University of Applied Sciences and Arts Northwestern Switzerland (FHNW)

The [University of Applied Sciences and Arts Northwestern Switzerland \(FHNW\)](https://bba.hkbu.edu.hk/be-global/hkbu-fhnw-double-degree-programme.html) is one of Switzerland's leading universities. By spending the first and final year at HKBU BBA, and the second and third year at FHNW, students will receive a BBA and a Bachelor in Business Administration (International Management) conferred by HKBU and FHNW respectively. The programme equips students the necessary knowledge and competencies to work across multiple functions and cultures. For more details: please visit: <https://bba.hkbu.edu.hk/be-global/hkbu-fhnw-double-degree-programme.html>.

Double Degree Programme with Kozminski University

The Double Degree Programme in business with [Kozminski University \(KU\)](#) is designed for students who wish to build a strong business and financial foundation by studying in the two leading financial hub cities. Students admitted to the BBA Programme will have the opportunity to spend the first one and a half year course of study at HKBU BBA, then another one and a half year at KU in Poland, then another one year at HKBU BBA. Selected students are granted propitious opportunities to receive world class education from both institutions, and to be awarded degrees from HKBU and KU. For more details, please visit: <https://bba.hkbu.edu.hk/be-global/hkbu-ku-double-degree-programme.html>.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Experiential Learning Requirement

All BBA students are required to complete at least 120 hours of experiential learning activities (exchange/internship/service learning) before graduation.

Self e-Learning Requirement

All BBA students must have completed 40 hours of courses on LinkedIn Learning platform during their studies at HKBU to be qualified for graduation.

Career Opportunities

Graduates can develop careers in professional accounting firms and in government, commercial and industrial sectors.

Programme Full Name	Bachelor of Business Administration (Hons) 工商管理學士(榮譽)
Programme Short Name	BBA
Short Description	The Bachelor of Business Administration (Hons) Programme is an integrated combination of general education and high quality business studies. Admitted students can investigate different concentrations by completing a common Year 1 curriculum and must declare their concentration by the end of Year 1.

Students can choose from one of the following concentrations which they will specialise from Year 2 onwards:

- Economics and Data Analytics
- Finance
- Human Resources Management
- Information Systems and Business Intelligence
- Marketing
- Strategic Retail Management and Innovation

To further deepen interdisciplinary across different business disciplines, students may take the following Concentrations as their second concentrations:

- FinTech
- MarTech

The School does not set any quota and will accommodate students' choice of Concentration. Additional graduation options include a Double Concentration within the BBA, or a Minor in a non-business discipline.

Unique Features

- *Experiential Learning*: All BBA students are required to complete at least 120 hours of experiential learning activities (exchange/internship/service learning) before graduation.
- *Local and Overseas Internship Opportunities*: The School cooperates with well-known organisations to offer BBA students a variety of exchange and internship opportunities.
- *Extensive Exchange Opportunities*: The School signed a total of over 260 exchange agreements with renowned universities worldwide.
- *Financial Support for Global Experience*: The School has committed HK\$2.2m yearly to support students' overseas experience.
- *Triple Accreditations*: HKBU School of Business is among the 1% of the world's business schools to be triple-accredited.

JUPAS Catalogue No.	JS2310
Programme Full Name	Bachelor of Communication (Hons) (Journalism and Digital Media / Public Relations and Advertising) 傳理學學士(榮譽) (新聞與數碼媒體 / 公關及廣告)
Programme Short Name	BCOMM
Short Description	This programme offers two majors: Journalism and Digital Media & Public Relations and Advertising . These two majors adopt broad-based admissions. Students opt for Majors and Concentrations in Year 1 Semester 1 and Semester 2 respectively. The Major allocation criteria are: DSE results, subject score of one core subject, students' choice preference and School's allocation.

A. Journalism and Digital Media Major

This major offers two concentrations: The **Journalism** concentration aims to prepare students for a career in Chinese-language media or international media that operate in English. The **Data and Media Communication** concentration, which is jointly offered with the Department of Computer Science, aims to train digital journalists with advanced computer skills, notably in data visualization and analytics. Both concentrations share Major Core and Major Elective Courses in three areas: (1) professional journalism skills of gathering, presenting and producing news and current affairs reports; (2) conceptual understanding of the journalism profession and its role in society; and (3) the relationship between journalism and society as well as the way politics, government, business and law operate in both local and international communities.

Students of the Journalism concentration are required to adopt one of the following four streams: **Chinese Journalism**, **International Journalism**, **Broadcast Journalism** or **Financial Journalism**, subject to resource and quota constraints. Students of the Data and Media Communication concentration have the option of taking the Financial Journalism Stream or General Stream. Each stream stresses the particular language and professional skills appropriate for the specialization. At the end of the programme, every student has to produce a final-year project that integrates their conceptual and practical journalism knowledge.

B. Public Relations and Advertising Major

This major offers two concentrations. The **Advertising and Branding** concentration offers training in strategic planning, brand storytelling and concept expression. It prepares students to present ideas in an innovative and socially responsible way for effective brand communication and promotion. Students of the **Public Relations** concentration will acquire both the critical understanding and relevant skills to develop successful careers in strategic communication, public affairs, social responsibility, media relations, crisis communication and digital public relations across different sectors (i.e. business, government or non-profit organisations).

Double Degree Programme with the University of Queensland in Australia

Students admitted to BCOMM will have the opportunity to join the Double Degree Programme between the School of Communication, Hong Kong Baptist University (HKBU), and the Faculty of Humanities and Social Sciences, The University of Queensland (UQ). This is a four-year full-time undergraduate programme whereby students study at the two universities and graduate from both. On completing the programme requirements, students will obtain two degrees, namely Bachelor of Communication (Honours) conferred by HKBU, and Bachelor of Journalism or

Bachelor of Communication conferred by UQ. Local students only need to pay HKBU local tuition fee. For more details, please visit https://www.comm.hkbu.edu.hk/comd-www/english/academic_programmes/m_ug_double_degree.htm

Double Degree Programme with the University of Missouri in the United States

Students admitted to BCOMM will have the opportunity to join the Double Degree Programme between the School of Communication, Hong Kong Baptist University (HKBU), and the School of Journalism, The University of Missouri (MU). This is a four-year full-time undergraduate programme whereby students study at the two universities and graduate from both. HKBU students will spend their first two years at HKBU and the following two years at MU. On completing the programme requirements, students will obtain two degrees, namely Bachelor of Communication (Honours) conferred by HKBU and Bachelor of Journalism conferred by MU. Local students only need to pay HKBU local tuition fee. For more details, please visit https://www.comm.hkbu.edu.hk/comd-www/english/academic_programmes/m_ug_double_degree.htm

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Students in the Journalism concentration are required to undertake a professional internship at local or international media. Internship is not required for students in the Data and Media Communication concentration, but will be arranged for them if they wish, subject to availability of intern positions.

Public Relations and Advertising Major students take up internships with local and international organisations, from “in-house” corporate communication departments of publicly-listed companies, start-ups, NGOs and public sector bodies to global public relations and advertising agencies. Through a well-established industry network, students can better equip their study life with real-world practice.

Students are encouraged to go on exchange study at one of the many universities we partner with around the world. Overseas study tours and other cross-cultural learning experiences are regularly organised to broaden students’ horizons.

Career Opportunities

Many graduates of the Journalism and Digital Media Major become reporters, editors, correspondents and producers in print, electronic and online media. Others move into related fields such as public relations, marketing, business and commerce, government service and education.

Graduates of Public Relations and Advertising Major are equipped to take up jobs in public relations firms and advertising agencies, and expected to become well-rounded leaders in various fields of communication.

A good number of our graduates are winners of prestigious local and regional media awards. Many have obtained scholarships to pursue postgraduate studies in Hong Kong and abroad.

Programme Website

<https://www.comm.hkbu.edu.hk/admission/en/home.html>

General Entrance
Requirements

Core Subjects	Minimum Level
CHINESE LANGUAGE ^{Note1}	3
CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE ^{Note2}	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website:

https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:
Attained with Distinction (II) =4, Attained with Distinction (I) =3
- The scores for Category C subjects are converted as follows:

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. Remarks on admissions score: Please refer to the following link for the updated score calculation and subject weights of our programmes for 2025 entry:
https://admissions.hkbu.edu.hk/ug/jupas_weighting

Calculation of scores for applicants with more than 1 sitting in HKDSE Examination

HKBU accepts combined results and will count the best results for meeting the entrance requirements and for the calculation of admissions scores.

Programme Entrance Requirements

Same as General Entrance Requirements

Notes for elective subjects:

1. One of the elective subjects must be any Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2);
2. The other elective subject can be any of the following subjects:
 - a) Category A subjects including Extended Part of Mathematics (Module 1 or Module 2);
 - b) Related Category B (Applied Learning) subjects (with "Attained with Distinction (I)" or above) listed in the following website:
https://www.comm.hkbu.edu.hk/admission/en/ApL_2025_entry.pdf;
 - c) Category C (Other Language) subjects.

Please refer to the following link for the details of General and Programme Entrance Requirements: http://admissions.hkbu.edu.hk/ug/jupas_requirement

Remarks on other requirements:

1. Good results in Chinese Language and English Language subjects are preferred.
2. High choice banding in JUPAS application is preferred.

JUPAS Catalogue No.	JS2330
Programme Full Name	Bachelor of Arts (Hons) in Film and Television 電影電視文學士(榮譽)
Programme Short Name	BA(FTV)
Short Description	The Bachelor of Arts (Hons) in Film and Television programme provides comprehensive training in film and television, with attention to relevant areas of theory, history, and practice.

Unique Features

To equip students with the knowledge and vocational skill required in the creative industries, such as film, television, commercial and other sectors in audio-visual production and to provide theoretical training in cinematic arts.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Study Tours

The Academy of Film organises a series of Study Tours to enhance students' competitive edge and their international/ global exposure such as Berlin International Film Festival, Sitges International Fantastic Film Festival (Barcelona, Spain), Busan International Film Festival (Korea), Toronto Reel Asian International Film Festival (Toronto), Far East Film Festival (Udine, Italy), Bucheon International Fantastic Film Festival (Korea), etc.

Internship

Students are encouraged to undertake a non-graded and zero-unit professional internship during their study. Television stations, media companies, advertising agencies and production houses, etc. may provide internship opportunities to students (subject to availability).

Career Opportunities

Career prospects for graduates of the Film and Television Major include creative content industries, such as film, TV, broadcasting, multimedia, and other sectors involved in the use of digital video and audio, such as public relations and advertising, IT, education, publishing, corporate communication, arts and media management, and journalism.

JUPAS Catalogue No.	JS2340
Programme Full Name	Bachelor of Fine Arts (Hons) in Acting for Global Screen 環球螢幕演技藝術學士(榮譽)
Programme Short Name	BFA(AGS)
Short Description	Bachelor of Fine Arts (Honours) in Acting for Global Screen is a unique, international, interdisciplinary “state-of-the-art” Bachelor of Fine Arts programme in acting, which combines acting training and performance studies, technology understanding and contemporary cultural reflection in its curriculum. It aims to be the most competitive undergraduate programme in acting performance, with cross-cultural and global enrichments that meet the needs of acting for screen, stage acting, acting with media technology in the film industries for both local and non-local students.

The curriculum includes internship at professional performance bodies and overseas training and learning. Students may conduct their graduation projects in English or any languages of their choice. Shortlisted applicants will be invited to attend audition/interview with casting experts.

Unique Features

Graduates are all rounded acting professionals. They shall be well equipped in acting performance and highly competent with storytelling formats, be it linear and nonlinear, long form and flashy clips, and therefore will be able to perform on various media from traditional stage performance to acting with technology.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Film Festival Tours

The Academy of Film organises Film Festival Tours, overseas film exchange and workshops to enhance students' competitive edge and their international/ global exposure such as Sitges International Fantastic Film Festival (Barcelona, Spain), Busan International Film Festival (Korea), Toronto Reel Asian International Film Festival (Toronto), Far East Film Festival (Udine, Italy), Tokyo International Film Festival (Japan), etc.

Internship and Workshops

Students are required to attend internship, performing practicum via casting and/or field work placement at overseas or local professional performing companies, media or film projects. There will also be workshops conducted by celebrated international and local drama and performing institutions.

Career Opportunities

The programme has very close network with theater, film and media professionals, festival juries, casting experts, film directors and performing practitioners who will be the advisory committee members of the Programme to attend audition, admission interview and graduation performance. They are potential employers of the graduates. The required internship in curriculum also provides golden career opportunities to our students.

JUPAS Catalogue No.	JS2410
Programme Full Name	Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science 中醫學學士及生物醫學理學士(榮譽)
Programme Short Name	BCM&BSc(BIOMED)
Short Description	This is a 6-year full-time double degree programme, including a 15-month internship training and an Honours Project. The curriculum includes extensive courses in Chinese medicine, as well as courses in biomedical science and clinical western medicine, with approximately 70% of the courses focused on Chinese medicine and 30% on biomedical and clinical western medicine. Instructors in this programme use diversified and interesting teaching tools and activities, including multimedia teaching tools, case studies, group discussions, laboratory practice, field trips to study medicinal herbs, and hospital visits, to achieve the intended learning outcomes. Courses are taught in English, Putonghua and Cantonese. To uphold the spirit of "Whole Person Education" advocated by the University, the curriculum includes 31 credits of General Education courses.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Clinical practice and internship are key elements of this programme. During the academic years, students attend practicum in the Chinese medicine clinics operated by the School of Chinese Medicine at HKBU. In their fifth and sixth years, students complete a 12-month internship in a Chinese medicine teaching hospital in Mainland China, followed by a 3-month specialized clinical internship.

Career Opportunities

Our graduates will become Chinese medicine practitioners which are in high demand. The licensing requirement for Chinese medicine practitioners has been promulgated in Hong Kong since 2003, and our graduates can meet the stringent requirements and pass the licensing examinations. Besides being a Chinese medicine practitioner, graduates may also pursue postgraduate research studies in local or overseas institutions or start their careers in education and administration in the fields of Chinese medicine or public health.

Remarks	Bachelor of Chinese Medicine is a general programme and Bachelor of Science is an honours programme.
Programme Website	https://scm.hkbu.edu.hk/en/education/undergraduate-programmes/BCM-BScBS.html

General Entrance Requirements

Core Subjects	Minimum Level
CHINESE LANGUAGE ^{Note1}	3
CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE ^{Note2}	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website:

https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:
Attained with Distinction (II) =4, Attained with Distinction (I) =3
- The scores for Category C subjects are converted as follows:

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. Remarks on admissions score: Please refer to the following link for the updated score calculation and subject weights of our programmes for 2025 entry:

https://admissions.hkbu.edu.hk/ug/jupas_weighting

Calculation of scores for applicants with more than 1 sitting in HKDSE Examination

HKBU accepts combined results and will count the best results for meeting the entrance requirements and for the calculation of admissions scores.

Programme Entrance Requirements

Core Subjects	Minimum Level
CHINESE LANGUAGE ^{Note1}	3
CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
Two of the following elective subjects:	
BIOLOGY ^{Note2}	3
CHEMISTRY ^{Note2}	3
ANY 1 SUBJECT ^{Note3}	3

Note 1: No alternative Chinese language qualifications will be accepted in lieu of HKDSE Chinese language.

Note 2: One elective subject must be Biology or Chemistry.

[Combined Science (Chemistry, Biology), Combined Science (Biology, Physics) and Combined Science (Physics, Chemistry) will not be recognised as Biology or Chemistry. (Applied to applicants in or before 2023)]

Note 3: The other elective subject must be any Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).

Remarks on other requirements:

Shortlisted applicants may be invited to attend interview.

JUPAS Catalogue No.	JS2420
Programme Full Name	Bachelor of Pharmacy (Hons) in Chinese Medicine 中藥學學士(榮譽)
Programme Short Name	BPharm
Short Description	The programme encompasses pharmaceutical science of Chinese Materia Medica (CMM), basic theories of Chinese medicine, basic science, western pharmacy and practicum training. During the four-year study, students are required to complete a 15-week practicum and an Honours Project. Courses are taught in English, Putonghua and Cantonese. Throughout the programme, research concepts and tools are introduced, and the concept of "Whole Person Education" is also emphasized in the student-oriented General Education programme.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Starting from year one of the study, students will attend the practicum sessions in which they have plenty opportunities to broaden their knowledge. During the summer break after the first year of study, students are required to attend a 2-week practicum in the Medicinal Botany. During the summer breaks after the third and fourth years of study, they will attend the practicum in either a pharmaceutical plant or an herbarium in Hong Kong, Shenzhen, Shaoguan or Guangzhou.

Career Opportunities

Career opportunities of the BPharm graduates include CMM quality control in the government sectors and business management in the commercial sector of Chinese medicines. Graduates can also pursue research postgraduate study in either local or overseas institutions for the development of new drugs.

JUPAS Catalogue No.	JS2510
Programme Full Name	Bachelor of Science (Hons) 理學士(榮譽)
Programme Short Name	BSc
Short Description	Under the 4-year curriculum, students will be admitted on a Faculty basis with broad-based education in science in the first year. Students will have a free choice of 7 majors leading to award of the Bachelor of Science below.

Biology

1) BSc (Hons) in Applied Biology

This programme offers two concentrations of study:

- i) Biotechnology**
- ii) Environmental Science**

The programme is structured to provide the necessary training in biological sciences to meet local and international needs in the fields of biotechnology, biomedical science, environmental technology and management, and ecosystem conservation management. Various laboratory courses and field trips are provided to equip students with technical skills for biological and biomedical research as well as the biotechnology and environmental industry.

2) BSc (Hons) in Applied Biology and BSc(Hons) in Ecology and Conservation [Double Degree]

This programme is jointly offered by Hong Kong Baptist University (HKBU) and University of Lincoln in the UK. In this “3+1” Double Degree programme, students studying in the Environmental Science concentration of the Applied Biology programme will study the first three years at HKBU to gain fundamental and advanced knowledge and skills in environmental science and management to address current and topical environmental and human health-related issues and problems, and spend the fourth year at University of Lincoln in its Ecology and Conservation programme. This will provide students with a firm grounding in the principles of ecology and conservation to address challenges pertaining to the conservation of biodiversity.

3) BSc (Hons) in Bioresource and Agricultural Science

The programme is the first and unique agriculture-related professional programme in Hong Kong, which focuses on the integration of agriculture with bioresource management with the aim of cultivating an understanding of the social, ecological and environmental significance of agricultural practices and bioresource conservation from the perspective of sustainability.

All students admitted to this programme will be offered an internship opportunity, professional organic certification and inspector training.

Chemistry

4) BSc (Hons) in Biochemical and Testing Sciences

This programme offers two concentrations of study:

- i) Biomedical Chemistry (BMC)**
- ii) Testing and Certification (T&C)**

The aim of the programme is to provide students with a strong foundation in all principal areas of chemical sciences. The curriculum is designed to equip students with ample knowledge and skills in (applied) chemistry and biochemistry, solving real-world scientific problems especially in biomedicine and (bio)chemical testing. Emphasis will also be placed on developing students' analytical mind, logical and

critical thinking, and problem-solving skills, which are the essential generic capabilities in employment and postgraduate study.

[^] Full recognition from the Hong Kong Association for Testing, Inspection and Certification (HKTIC) for the professional qualification of Certified Testing Professional (CTP, chemical testing) under Professional Certification Scheme for Testing Personnel (PCSTP).

Computer Science

5) BSc (Hons) in Computer Science

The aim of the programme[^] is to prepare students for pursuing a career or postgraduate study in computer science or Information Communication Technology-related areas. For details, please visit [our website](#).

This programme offers four concentrations of study:

- i) **Artificial Intelligence (AI)**
- ii) **Computing and Software Technologies (CST)**
- iii) **Data and Media Communication (DMC)** (collaborated with HKBU's Department of Journalism, School of Communication)
- iv) **Information Systems and Analytics (ISA)**

The programme includes diversified learning experience, such as (overseas) summer internship, 1-year placement, overseas summer research programme and overseas exchange study.

[^] Full accreditation from the Hong Kong Institution of Engineers (HKIE) has been granted for AI, CST, ISA and double concentrations (AI +DMC, CST+DMC and ISA+DMC).

From 2024-25 Academic Year onwards, students meeting CST+AI, CST+ISA or ISA+AI graduation requirements may apply to the Department for graduation with double concentrations at the end of March of the final year#.

#Remarks: CST+AI, CST+ISA and ISA+AI double concentrations are subject to constraints of timetabling and, hence, cannot be guaranteed.

Mathematics

6) BSc (Hons) in Mathematics and Statistics

The programme is designed to provide students with a solid foundation in mathematical and statistical concepts with an aim towards developing logical thinking and analytical skills that are applicable to various career fields.

Special emphasis on applications in industrial and commercial areas is placed, and students will be well trained in the use of various computer software packages to solve real-life problems in management science, logistics, computer visualisation, computational finance, engineering design, actuarial science, clinical research, industrial applications, social science research and others.

This programme offers two concentrations of study:

- i) **Data Science**
- ii) **Applied Statistics**

Students can graduate without any concentration or with one or two concentration(s) according to their interest and career goals.

Physics

7) BSc (Hons) in Green Energy and Smart Technology

The aim of the programme is to nurture young professionals with the knowledge and practical skills to develop and implement green and smart technology-driven approaches for a career in the rapidly expanding sector of smart and net-zero carbon city development. This programme provides training in green energy science and smart technology, such as green energy generation, smart energy storage and distribution, smart control systems and IoT, carbon audit, energy audit and energy management. In addition to in-class learning and projects, students will also be provided with experiential learning opportunities, such as internship and overseas exchange study. Courses are also available to help students to prepare for professional certification examinations. Students graduating from this programme are well equipped and highly competitive for careers as green energy and smart technology professionals, e.g., in energy audit and consulting, energy/utility companies, green/smart building design and management, smart transportation and energy conservation. The basic science training also prepares students for further studies in science and engineering, or careers in technology innovation.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Remarks

The general unit requirement is 128 units but that for BSc(Hons) in Bioresource and Agricultural Science is 129 units, with an additional 1 unit on Summer Internship.

Programme Full Name	Bachelor of Arts (Hons) / Bachelor of Social Sciences (Hons) (European Studies [French/German Stream] / Geography/ Global and China Studies/ Government and International Studies/ History/ Sociology) 文學士(榮譽) / 社會科學學士(榮譽) (歐洲研究 [法文/德文] / 地理 / 全球及中國研究 / 政治及國際關係學 / 歷史 / 社會學)
Programme Short Name	BA/BSocSc
Short Description	The Programmes will be considered for a joint admission. Students will choose their Majors via internal application.

BSocSc (Hons) in European Studies – French/German Stream

European civilisation is among the most influential in the world. The European Union has emerged as a major actor in world politics and economics; its growth and development are of vital global importance. Students will undergo rigorous training in French or German up to levels of academic and professional fluency. They may also be eligible for one of the double degree programmes with our European partners. By the time of graduation, students will have a firm knowledge of the European world and possess the communicative skills necessary for a future professional or academic career in the fields of European-Asian relations. The Programme includes a study year abroad (i.e. in the 3rd year of study) in a French or German speaking country.

BSocSc (Hons) in Geography

The Programme provides a solid training in geographical theories and methods, and helps students acquire intellectual and practical skills to analyse, assess and interpret geographical information both independently and as part of a team. It aims to provide students with a comprehensive knowledge of spatial order and the interdependence of different regions of the world, and a critical understanding of environmental and socio-economic development issues with a focus on global-local connections. The Programme also provides students with the ability to apply a variety of geographical techniques and methods to analyse and to interpret diverse people-environment interactions.

BSocSc (Hons) in Global & China Studies

The Programme trains students to explore the on-going transformations and engage with indigenous communities inside and beyond China. It highlights the situation of a changing China in the evolving world order. Students will study the socio-political, economic, environmental, and cultural processes of globalisation and the developments in China, and gain opportunities of language training and experiential learning in Hong Kong, Mainland China, and overseas via international exchange opportunities. The Programme trains students to understand Hong Kong, China and the world in relational and comparative perspectives. It also cultivates cosmopolitan, intercultural citizens who think globally and act locally.

BSocSc (Hons) in Government & International Studies

The Programme offers an immersive exploration of global politics and political science. It equips students with knowledge in key areas such as comparative politics, international relations, political philosophy, geopolitics, public administration and policy studies. Our curriculum uniquely focuses on the politics of Hong Kong, Mainland China, the Asia-Pacific region, and Europe, offering a global perspective that is both diverse and comprehensive. Students will also be trained in cutting-edge research methods and given the experience to conduct original research. Graduates will be well-prepared for global careers in public affairs, government, business, philanthropy, media, and international development. Our all-rounded curriculum ensures that students develop critical thinking, analytical, and practical skills necessary for success in these fields.

BA (Hons) in History

The Programme aims to help students develop a holistic perspective of history. It provides a balanced curriculum with equal emphasis on China and the global world. After completing the programme, students will possess a sound understanding of major events and movements that have shaped the growth of the human community, as well as the skills necessary to trace the historical roots of contemporary issues and to analyse worldwide the impact of individual events. Students will develop a critical and broadminded attitude toward the traditions and cultural heritage of different civilisations.

BSocSc (Hons) in Sociology

The Programme offers a comprehensive exploration of social relationships within global, regional, and local institutional contexts, underpinned by rigorous and cutting-edge data analysis and research methodologies. This programme is designed to cultivate students' ability in three key areas: (1) understanding persistence and change in social actions and structures and how they relate to diverse social institutions; (2) fostering a critical comprehension of social values and meanings of social behaviours; and (3) nurturing the capacity to undertake rigorous research on pertinent social issues.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

BSocSc (Hons) in European Studies – French/German Stream

European Studies is a global programme with a special emphasis on the French- and German-speaking world. In addition to the academic exchange and internship opportunities in Europe, it also offers numerous intercultural seminars, workshops, as well as international service-learning, career talks and visits in various European corporations and organisations, that operate in the Greater Bay Area and the Asia-Pacific.

BSocSc (Hons) in Geography

Geography students will have opportunities to participate in local and regional field trips and subject-related fieldwork and practical work. In addition, a mandatory field camp of around 4 to 9 days is organised for Year 3 students in semester 2 of every year. The past field camps have been held in the U.S., Australia, Mainland China and Southeast Asia, etc.

Besides, students will be able to participate in service-learning and interdisciplinary courses and projects and become responsible citizens with a global outlook. Students will examine social and/or environmental issues and leverage the geographical training to create possible solutions.

BSocSc (Hons) in Global & China Studies

The Programme normally organises the Summer Sojourn I in mainland China for the second-year students. Students may also choose between Global Work Placement and Summer Sojourn II in European countries during their third or fourth year of study.

BSocSc (Hons) in Government & International Studies

BA (Hons) in History

BSocSc (Hons) in Sociology

These Programmes offer the best student experience by enabling students to expand social network through interacting with students and academic staff from a variety of backgrounds, e.g. course-related and outside classroom learning organised by the Major Departments and/or student societies.

All Programmes also offer opportunities in local and/or overseas internship such as Social Sciences Internship and USA Disney Internship Programmes, and exchange with overseas agencies, firms and universities available from the University, Faculty, and Departments.

Career Opportunities

BSocSc (Hons) in European Studies – French/German Stream

Multinational corporations; European government or business organisations (e.g. Consulates and Chambers of Commerce); media and communication; finance/banking; trading/merchandising; transport/logistics; retail; tourism, cultural and education sectors.

BSocSc (Hons) in Geography

Commerce/finance, teaching/research, civil service, the media, tourism, administration/management, community/social services, and non-governmental organisations

BSocSc (Hons) in Global & China Studies

International business, trade and development, consultancy work, tourism, marketing, education and research, management, public relations, media and communication, international organisations, government agencies, NGOs.

BSocSc (Hons) in Government & International Studies

Civil service, media, local and international non-governmental organisations, social services, academic and commerce, district organisations, local and international think tanks.

BA (Hons) in History

Teaching, museum and archive work, civil service, cultural affairs, business, the media, publishing, or journalism.

BSocSc (Hons) in Sociology

Careers in social research, journalism and media, social services, education, civil services, public relations, marketing, administrative management, and human resources management.

General Entrance Requirements

Core Subjects	Minimum Level
CHINESE LANGUAGE ^{Note1}	3
CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE ^{Note2}	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website:

https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:
Attained with Distinction (II) =4, Attained with Distinction (I) =3
- The scores for Category C subjects are converted as follows:

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. Remarks on admissions score: Please refer to the following link for the updated score calculation and subject weights of our programmes for 2025 entry:

https://admissions.hkbu.edu.hk/ug/jupas_weighting

Calculation of scores for applicants with more than 1 sitting in HKDSE Examination

HKBU accepts combined results and will count the best results for meeting the entrance requirements and for the calculation of admissions scores.

Programme Entrance Requirements

Same as General Entrance Requirements

Notes for elective subjects:

- 1) One of the elective subjects must be any Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2);
- 2) The other elective subject can be any of the following subjects:
 - a) Category A subjects including Extended Part of Mathematics (Module 1 or Module 2);
 - b) Category C (Other Language) subjects.

Please refer to the following link for the details of General and Programme Entrance Requirements: http://admissions.hkbu.edu.hk/ug/jupas_requirement

Remarks on other requirements:

Category B (Applied Learning) subjects will be considered in the admissions selection process.

JUPAS Catalogue No.	JS2620
Programme Full Name	Bachelor of Arts (Hons) in Physical Education and Recreation Management 體育及康樂管理文學士(榮譽)
Programme Short Name	BA(PERM)
Short Description	<p>To be physically active is an integral and important part of healthy living. With the increasing awareness and need for quality and active lifestyles, the number of public and private sport facilities, sport clubs, fitness clubs and residential clubhouses has increased substantially over the years. There is a high demand for professional management of sports and recreation programmes and facilities as well as delivery of quality physical education in school and exercise training in the community environments. With the continuous demand for trained graduates in the field of physical education, sport and recreation management, the Bachelor of Arts (Hons) in Physical Education and Recreation Management (PERM) Programme was established in 1992. The overall aim of the PERM Programme is to provide students with sufficient depth and breadth of knowledge, skills and practical experience (internship) in the discipline of physical education, exercise science and recreation management. Furthermore, under the University's ethos of "whole person education", students will also receive a strong liberal arts education that will prepare them for a variety of careers.</p>

Unique Features

Starting in the 2025/26 academic year, a new major in sports science will be introduced in our existing PERM programme. This interdisciplinary path seamlessly blends traditional sports science courses with cutting-edge disciplines such as artificial intelligence, molecular biology, and Chinese medicine. This innovative curriculum not only equips students with foundational knowledge but also prepares them to tackle the complex challenges in the field of sports science. By fostering a holistic understanding of human performance and well-being, our graduates will emerge as leaders in the field, ready to make significant contributions both locally and internationally.

Specifically, the objectives of the PERM Programme are to enable students to:

- Acquire knowledge and concepts in physical activity, sports science and recreation management;
- Understand the key issues relating to sports science and recreation management in society;
- Apply knowledge and skills to effectively select, plan, conduct and manage programmes in physical education, sport, health fitness and recreation;
- Utilize a variety of assessment tools for evaluating sports performance, health-related and skill-related fitness, and recreation programmes;
- Develop critical thinking skills, independent research skills, communication skills and team work skills; and
- Foster positive attitudes towards adopting a healthy, active lifestyle.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge

from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Students are required to complete 250 hours of internship placement separately in local and overseas. And, they are encouraged to apply exchange opportunities from one term to one academic year. Services learning are provided in various courses.

Career Opportunities

Graduates of the PERM Programme are employed in sport and recreation programme planning and management in the following agencies:

- Leisure and Cultural Services Department (Government)
- Disciplinary Forces (Government)
- National Sports Associations
- Hong Kong Sports Institute
- Non-Government Organisations (e.g. Chinese YMCA, Hong Kong Federation of Youth Groups)
- Sport Marketing and Consultancy Companies
- Sports Media
- Recreation Camps
- Residential Clubhouses and Private Recreation Clubs
- Fitness Centres
- Schools/Higher Education Institutes (Teaching Physical Education)

JUPAS Catalogue No.	JS2660
Programme Full Name	Bachelor of Social Work (Hons) 社會工作學士(榮譽)
Programme Short Name	BSW
Short Description	<p>The Department of Social Work is one of the leading providers of social work training and education in Hong Kong. The four-year Bachelor of Social Work (Hons) Programme aims to equip students with knowledge and professional values in social work so that graduates can effectively meet the social service needs of the community in a flexible, realistic, creative and professional yet critical manner.</p>

In the four-year curriculum, students are required to study a total of 128 units, including 4 units of Social Sciences common core, 78 units of Social Work Major courses (including Honours Project and Major electives), 31 units of General Education courses and 15 units of Elective courses. The Social Work Major courses are structured into four areas, namely (a) Human Behaviour and Social Environment, (b) Social Work Theory and Practice, (c) Social Policy, Research and Administration, and (d) Fieldwork. Graduates of our Bachelor of Social Work (Hons) Programme are recognised by most social work professional bodies at the international level. They can register as Registered Social Workers (RSW) with the Social Workers Registration Board in Hong Kong.

Unique Features

Students are required to attend another 100 hours of non-credit bearing pre-placement activities, a growth group, and four levels of integrative tutorials over four years. Following the University's internationalisation strategy, there are growing opportunities for student exchange, overseas placements, visits from overseas scholars and other related activities to substantiate experiential and academic learning.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

All social work students are required to undertake two fieldwork placements in their Year 3 and Year 4 study. Each supervised fieldwork placement is of 400 hours, thus adding up to 800 hours in total plus another 100 hours of pre-placement work.

All students are given an opportunity to consider applying for pursuing an exchange programme either in Year 2 or Year 3 study. Students may be able to finish the programme within 4 years if they pursue the exchange programme in semester 2 of Year 2 study and follow through the study plan provided. If it lasts for two semesters, the eligible ones will need to finish the whole Programme in five years.

Career Opportunities

Graduates holding a Bachelor of Social Work (Hons) degree are qualified to apply as Registered Social Workers (RSW) in Hong Kong according to the Social Workers Registration Ordinance 1997. They are eligible to be employed as Assistant Social Work Officers in the Social Welfare Department or non-governmental organisations in Hong Kong.

General Entrance
Requirements

Core Subjects	Minimum Level
CHINESE LANGUAGE ^{Note1}	3
CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE ^{Note2}	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website:

https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:
Attained with Distinction (II) =4, Attained with Distinction (I) =3
- The scores for Category C subjects are converted as follows:

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. JUPAS Catalogue No. JS2810

Programme Full Name Bachelor of Arts (Hons) in Visual Arts
視覺藝術文學士(榮譽)

Programme Short Name BA(VA)

Short Description Programme Vision

Bachelor of Arts (Hons) in Visual Arts programme celebrates the interdisciplinary intersections within art, design and media in between. Recent developments have introduced new processes, technology and situations that have resulted in an expanded notion of artistic practices beyond the traditional ways of engaging with and learning about the visual arts. The Academy considers all creative disciplines as equally valuable outlets for creative ideas and prepares its students to think, act and respond creatively to the circumstances around them.

Teaching Philosophy

The Bachelor of Arts (Hons) in Visual Arts Programme at the Academy of Visual Arts is a professional degree that focuses on intensive practice-led work in the visual arts supported by a programme in General Education. It emphasises creativity, versatility, and intelligent articulation, thus enabling its graduates to enter professional, studio-based careers in such fields as studio arts, design, and/or craft after earning the degree. Our BA-students have the opportunity to develop technical competencies, informed aesthetic judgment, and an understanding of the context in which contemporary work is created, rooted in the ever-shifting cultural climate of creative production.

Programme Structure

The Bachelor of Arts (Hons) in Visual Arts Programme is a comprehensive study programme in visual arts that incorporates subjects from across the scope of fine arts, design, craft and art theory. As a guiding principle of the programme, students will progress from breadth to depth over the time of study. Accordingly upon entry to the programme and completion of the required introductory courses, all students may choose electives that match with their personal preferences, their talent, and/or professional career intentions. Based on their choices in Year 2 they will further choose their courses in Year 3 and Year 4, thereby gradually developing a focus in their studies, which will finally articulate in one of two available programme concentrations:

- Studio and Media Arts (SMA); or
- Craft and Design (CD)

Unique Features

- Leading practice-based art & design academy in Hong Kong
- International teaching team and first-class studio facilities
- Professional degree, professional career

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future

development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

We require all students of the Bachelor of Arts (Hons) in Visual Arts programme to undertake a self-organised non-credit-bearing work experience (internship, work placement, or similar) during their time of study. The work experience links classroom theory to professional practice and provides the student with learning experiences beyond the academic programme. Such experiences are invaluable for the student's professional and personal development, giving them the opportunity to experience the wider arenas of the creative and cultural sectors.

Career Opportunities

The majority of our graduates are full-time employed, work in their own businesses or as freelancers. Among the full-time/self-employed graduates, the greater part works in the creative and cultural sectors, with a significant proportion also in visual arts education, or in public relations and communication, marketing or research.

JUPAS Catalogue No.	JS2910
Programme Full Name	Bachelor of Science (Hons) in Business Computing and Data Analytics 商業計算及數據分析理學士(榮譽)
Programme Short Name	BSc(BCDA)
Short Description	<p>The aim of the programme is to nurture the next-generation business leaders for the international job market, equipped with the latest technical knowhow to succeed in fast-changing technologies for business. The programme has the following objectives:</p> <ol style="list-style-type: none">1. To provide students with a solid knowledge base and skill set in data analytics that enable them to create innovative applications in business organisations, particularly in finance, economics, and consumer/marketing business;2. To provide students with good data-driven problem-solving skills and help them to develop an analytical and creative mind for data analytics solution design, management and planning in business organisations;3. To equip students with good inter-personal and communication skills for effective collaboration between IT and business units; and4. To equip students with a solid knowledge and experience in developing data analytics projects to support their career advancement and further studies in business computing, data analytics or related fields.

Graduates of this programme are expected to possess knowledge and professional skills in essential areas of computer science, economics, finance and decision sciences related to business computing. In addition to all the essential areas, graduates will also possess in-depth knowledge and professional skills in some specific areas in FinTech, Blockchain, Artificial Intelligence, Machine Learning and advanced programming and data-analytics skills, so as to broaden their awareness in business applications that involve Artificial Intelligence and Big Data Analysis.

Unique Features

The programme is co-offered by the Faculty of Science (Department of Computer Science) and the School of Business.

The programme is designed with overseas and/or local data analytics internship.

Transdisciplinary Second Majors / Second Majors

The University envisions the importance of transdisciplinary innovations in response to the global challenges and offers a flexible curriculum structure that is much more agile and fits the present and yet-to-known future needs. Students of designated programmes will have the opportunity to opt for a transdisciplinary second major (TSM) / second major (SM) on top of their major. TSMs are geared for particular talent needs in Hong Kong and prepare students to pool knowledge from disciplines to excel in multiple careers, whereas SMs prepare students to gain in-depth knowledge from another discipline to complement the first major. This approach equips students not only for their careers, but also the future development of their respective fields. Seven TSMs and two SMs will be launched in the 2025/26 academic year. Please click [here](#) for more details.

Student Learning Experiences

Students can opt for international exchange to diversify their learning experiences.

Students are able to undertake internship to gain Business Technology work

experience.

Students are able to join an industry mentoring scheme to learn from data analytics professionals or practitioners.

Career Opportunities

We expect our graduates' skills to be attractive to many employers: they can start their careers as business communicators, data scientists, data developers, data engineers, database administrators, financial analysts, market researchers, and other IT-related professionals, or engage in financial services jobs. The training in this programme would also facilitate their ventures into launching their own businesses.

Scholarships

1. Admissions Scholarship
2. Global Experience Scholarship

JUPAS Catalogue No.	JS2920
Programme Full Name	Bachelor of Arts and Science (Hons) in Arts and Technology 藝術及科技文理學士(榮譽)
Programme Short Name	BASc(ARTT)
Short Description	This transdisciplinary programme is designed for tech savvy individuals who wish to pursue a career in applying technologies in the arts and culture sector and creative industries.

The arts and culture sector and creative industries have been expanding rapidly in Hong Kong and the Mainland. The integration of various technologies into art creation have led to many possibilities unimagined before. Specialists are needed to push for the future forms of arts and culture and creative industries.

HKBU is recognised for its strengths in film, acting, music, visual arts, culture and humanities, as well as strong connections with the arts and culture sector and creative industries. Creative Media and Practice is indeed one of the three interdisciplinary research clusters in HKBU's 10-year Strategic Plan.

Graduates of this programme are capable of creating and delivering contents in the arts and culture sector and creative industries, achieving technology-augmented creativity and viewer experience, and using technologies such as extended realities in film, theatre, game development and designing museum experience and heritage conservation.

The programme is open to students from all academic backgrounds.

Unique Features

Students will work closely in teams alongside with professors and professionals who are interested in different aspects of arts and culture and creative industries. They will study in the existing facilities in HKBU such as the Augmented Reality Lab and Creative Robotics Lab, as well as the state-of-the-art facilities of the Jockey Club Campus of Creativity to be opened in 2024/25. Students will have many opportunities to complete multiple creative projects.

Student Learning Experiences

The key learning activities, particularly in the last two years, are collaboration on art-tech creation, arts and culture projects and experiential learning. Students will work with renowned professors and experts from around the world and the Mainland. They will also undergo multiple experiential learning activities in Hong Kong, the Mainland particularly the Greater Bay Area, and overseas.

Career Opportunities

Graduates can pursue independent creative endeavours or secure positions in film, music, gaming, and performing arts groups. Additionally, there are opportunities in production companies and creative agencies where they can work as:

- Interactive and Software Designers
- Sound Designers
- Video Designers
- Immersive Spatial Designers
- Product Designers
- Producers

- Technical Managers
- Artistic or Creative Directors

Graduates can leverage their expertise in immersive art to enhance viewer experiences in museums, galleries, and the MICE (meetings, incentives, conferences, and exhibitions) industries by integrating physical and virtual elements. Furthermore, museums, art traders, and art groups seek graduates skilled in the digitalisation and authentication of art.

The programme also provides a solid foundation for those wishing to continue their education through postgraduate studies, both locally and internationally. As new arts and culture venues emerge, the demand for art and technology specialists is expected to grow significantly.

Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:

Attained with Distinction (II) =4, Attained with Distinction (I) =3

- *The scores for Category C subjects are converted as follows:*

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. Remarks on admissions score: Please refer to the following link for the updated score calculation and subject weights of our programmes for 2025 entry:
https://admissions.hkbu.edu.hk/ug/jupas_weighting

Calculation of scores for applicants with more than 1 sitting in HKDSE Examination

HKBU accepts combined results and will count the best results for meeting the entrance requirements and for the calculation of admissions scores.

JUPAS Catalogue No.	JS2930
Programme Full Name	Bachelor of Arts (Hons) in Business Administration (Global Entertainment) 工商管理文學士(榮譽)(全球娛樂)
Programme Short Name	BA(BUSADMIN-GE)
Short Description	This transdisciplinary programme is designed for students who are business-minded and wish to pursue a career in the entertainment business and/or arts, cultural and creative industries.

Entertainment business covers a very broad coverage: film, music, media, gaming, cultural events and performances. It has been rapidly developing in Hong Kong, the Mainland and across the globe in recent years. Technologies and new forms of monetization are also changing the viewer experience drastically. Global entertainment businesses need specialists who can perform a wide range of duties including content development, licensing, finance, marketing, administration, circulation, audience development, public education and more importantly, who can support and champion the fast-evolving new forms of audience engagement.

HKBU is recognised for its strengths in film, acting, music, visual arts, culture and humanities, as well as strong connections with the industries. It is well-prepared to develop into a research and education hub for creative industries in the next few years. Creative Media and Practice is indeed one of the three interdisciplinary research clusters in HKBU's 10-year Strategic Plan.

The programme is open to students from all academic backgrounds.

Unique Programme Features

The programme is solution-based as students will complete multiple collaborative real-life projects in the industries.

Firstly, students will work closely in teams alongside with professors and professionals who are interested in different aspects of the entertainment business and/or arts, cultural and creative industries. Secondly, students will make full use of the existing facilities in HKBU such as the Augmented Reality Lab and Creative Robotics Lab, as well as the state-of-the-art facilities of the Jockey Club Campus of Creativity to be opened in 2024/25. Thirdly, students will be given options to explore the range of theory and research across the disciplines of arts and business while mandating the completion of core units in creativity, cultural understanding, ethics, and communication.

Student Learning Experiences

Students will undergo an array of experiential learning activities such as transdisciplinary studio collaboration, industry seminars and roundtable discussions. They will work on company-based projects to provide solutions to real-life problems in the creative and cultural industries under the supervision of renowned professors and experts in and outside Hong Kong. They will attend local and overseas field trips and complete internships in the Mainland particularly the Greater Bay Area and overseas.

Upon graduation, students will have a strong portfolio documenting their achievements. Skills such as teamwork and communication will also be cultivated and assessed.

Career Opportunities

Graduates of the programme will develop transdisciplinary skills, creativity, intercultural awareness and entrepreneurial mindset that enable them to facilitate creative content creation and delivery and/or take up business positions in administration, marketing, distribution, project and event management for entertainment, arts, culture and creative industries. Graduates will be effective in running business operations, engaging the public audiences, enhancing customer services and front-stage experiences. Their employers include entertainment businesses, creative industries, cultural venues, museums, exhibition spaces, performing venues, art groups, NGOs and foundations, art traders, event organisers and the Government.

JUPAS Catalogue No.	JS2940
Programme Full Name	Bachelor of Social Sciences (Hons) / Bachelor of Science (Hons) in Innovation in Health and Social Well-Being 創新醫療及社會健康社會科學學士(榮譽) / 理學士(榮譽)
Programme Short Name	BSocSc/BSc(HSWB)
Short Description	Technological innovation is transforming the global landscape of health and wellness, driving changes in the society and creating new opportunities for the industry. This programme will equip students with the necessary skill-set to apply and integrate technologies with their domain knowledge in health and wellness. Graduates will be technologically competent, entrepreneurial and adventurous. They will be able to identify problems and use cutting-edge health and social technologies to meet the emerging needs in the societies.

This transdisciplinary programme consists of two concentrations – *Health and Social Wellness Concentration* and *Health Technology and Informatics Concentration*.

Health and Social Wellness Concentration

Students in the Health and Social Wellness Concentration may choose courses in social identity & health cultures, health planning and communication, smart cities for healthy living, and innovative solutions for social enhancement.

Health Technology and Informatics Concentration

Students in the Health Technology and Informatics Concentration may take courses in the health management system, biotechnology, smart living technology, and healthcare intelligence.

It is open to students from all academic backgrounds.

Unique Features

Both concentrations will adopt an integrative curriculum covering a range of coherent topics. The *Health and Social Wellness Concentration* will cover social identity, health communication, healthy living and social enhancement. The *Health Technology and Informatics Concentration* will examine health management, biotechnology, smart living and healthcare intelligence.

Teaching will be informed by cutting-edge research particularly in HKBU's Interdisciplinary Research Clusters of *Data Analytics and Artificial Intelligence* and *Health & Drug Discovery*. Various pedagogies will be adopted such as research-led learning, problem-based and solution-driven learning, service-learning, and guided study as directed by academic advisors.

Student Learning Experiences

Students will work closely in teams alongside with professors, professionals and students to provide solutions to real-life issues in health and wellness. They will also undergo multiple experiential learning activities in and outside Hong Kong.

Career Opportunities

Graduates of the *Health and Social Wellness Concentration* will find positions in corporate health and wellness teams, publishing industry, family health; or work as health or wellness coach/consultant. Those of the *Health Technology and Informatics Concentration* may work as health informatics specialists, data-based medical diagnosticians, or health data or social impact analysts.

JUPAS Catalogue No.	JS2950
Programme Full Name	Bachelor of Arts, Science and Technology (Hons) in Individualised Major 文理及科技學士(榮譽)自訂主修
Programme Short Name	BAScT
Short Description	<p>Humankind is facing a more unpredictable future as technological advancement has brought disruptive changes and global problems are becoming more complex and serious. Young people need to be more adaptable, resourceful and creative in meeting future challenges. This is a future-focused programme which enables students to design their own personalised learning pathways. It is especially suitable for students who aspire to make a difference in the future world through various means, such as entrepreneurship, research, advocacy, invention and performance.</p> <p>The curriculum is made up of two major components. Firstly, in the solution-based learning modules, students will go through an active and exploratory intellectual journey consisting of cycles of problem-solving. The problems are contextualised in the real-life settings and students will work in groups under the guidance of their teachers and external specialists. Secondly, students will complete a major which gives them in-depth knowledge in one or more specific domains of their choice and prepares them for further study.</p> <p>The programme is open to students from all academic backgrounds.</p> <p>Unique Features</p> <p>The solution-based learning modules use a block design, which immerses students in one set of coherent learning activities around a problem at a time. The modules are student-centred, and guided by professors and/or professionals, and aim to facilitate deep learning toward addressing real problems. In the early years of the programme, the problems are smaller, more well-defined, and there will be more faculty guidance. As students proceed, the problems will become bigger, less well-defined, and students will become more independent with less faculty supervision. Examples include finding ways to provide support to care takers of elderly people (Year 1 or 2), revitalizing a heritage (Year 3), and making steps toward feeding the world population (Year 4). Students will play active roles in choosing the problems in the solution-based learning modules, as well as the approaches to solve these problems. The programme will give students ample autonomy and flexibility in designing their modules and curricula.</p> <p>Students will benefit from a number of guided self-learning pedagogies in the programme such as service-learning, collaborative learning and research-led learning. Depending on the problems they choose, they will work intensely with community partners, professionals, artists and entrepreneurs. In addition to joining internships and exchanges outside Hong Kong, they will work with overseas students and advisors in joint projects and learning activities such as summer schools.</p> <p>Career Opportunities</p> <p>Graduates will be resourceful and innovative problem-solvers and have a dedicated personal mission. They may become entrepreneurs, consultants, researchers, or artists, among other options. Their skills and abilities will enable them to take on multiple careers, which will be a trend in the future society, and make them especially competitive in jobs or industries that are yet to emerge.</p>

JUPAS Catalogue No.	JS2960
Programme Full Name	Bachelor of Arts and Science (Hons) in Digital Futures and Humanities 數位未來與人文學科文理學士(榮譽)
Programme Short Name	BASc(DIFH)
Short Description	<p>This transdisciplinary programme educates forward-looking graduates who will be well-versed in essential knowledge of humanities and digital technologies, as well as capable of integrating them for i) innovative management of digital cultural resources, ii) critical analysis and development of innovation policies to foster positive impact of technology deployment across the social environment with diversity, and iii) managing innovation projects with strategic consideration of human factors for successful digital transformation. The programme emphasizes humanities play a key role in shaping technology development for our digital futures in the rapidly changing world. Our graduates can make creative use of technologies with good understanding of humanities aspects to navigate the upcoming transformation in different sectors of the society, to shape the digital futures, and to positively impact our civilization.</p> <p>The graduates, based on their aspirations, can make different types of innovation to the digital futures, take a leading role in shaping policymaking about technology, manage and advise on technology research and development, and pursue careers in the arts and the cultural sectors, in government and public administration, in social and technology research, in NGOs and education sectors, in media, journalism and communications, in marketing and public relations, as well as in professions of the future that are and will continue to be on the rise.</p>

Unique Features

- a. **Transdisciplinary:** integrating humanities perspectives with digital technologies for sustainable innovation
- b. **Transcultural:** fostering competence of “involving, encompassing, or extending across two or more cultures”
- c. **Flexible:** providing options of learning pathways:
 - i. *Creativity and Culture* – interaction and co-evolution/co-shaping of cultures and creativities;
 - ii. *Innovation, Policy and Value* – policies and strategies which can foster innovation and maximize the societal, economic and ethical value of creative activities; and
 - iii. *Innovation Project Management* – management of digital innovation projects that involve creative problem-solving, the development of new digital products or services, and the implementation of innovative ideas.
- d. **Solution-based:** putting emphasis on experiential learning and community engagement

Student Learning Experiences

Other than offering students internship opportunities to allow them to have actual experiences in different industries, this programme also adopts solution-based learning and students will complete multiple collaborative real-life projects in the industries to foster diversity, shared embodied experience, future vision, and civil society's active role in shaping the innovation process. Students are provided with various occasions to work closely in teams alongside professors, professionals and students who are interested in different aspects of the digital futures and humanities to engage in the process of co-creation to shape technological development for the

benefit of communities.

Career Opportunities

Deep humanities learning integrated with cutting-edge digital technologies enables our graduates to foster positive impact of technology deployment, and managing innovation projects with strategic consideration of human factors. Our graduates are able to take a leading role in shaping policymaking about technology, manage and advise on technology research and development, and pursue *thrilling careers* in the arts and the cultural sectors, in government and public administration, in social and technology research, in NGOs and education sectors, in media, journalism and communications, in marketing and public relations, as well as in professions of the future that are and will continue to be on the rise.

Some possible career paths:

- i. *Creativity and Culture*: E.g., digital culture programme manager, cultural strategist, digital archivist, digital content specialist, digital curator, user experience designer, arts educator, etc.
- ii. *Innovation, Policy and Value*: E.g., innovation policy analyst, community development specialist, policy communications specialist, research and development manager, social media analyst, etc.
- iii. *Innovation Project Management*: E.g., innovation project manager, cultural event planner, product innovation manager, arts and culture entrepreneur, social innovation consultant, risk management consultant, environment, social and governance (ESG) specialist, change management consultant, etc.

The programme also prepares students for pursuing postgraduate studies in local and overseas institutions.

CITIZENSHIP AND SOCIAL DEVELOPMENT	Attained
ENGLISH LANGUAGE ^{Note2}	3
MATHEMATICS COMPULSORY PART	2
Elective Subject(s)	Minimum Level
ANY 2 SUBJECTS ^{Note3}	3

Note 1: For Non-Chinese Speaking (NCS) students, alternative Chinese Language qualifications deemed acceptable by the University (except for Bachelor of Chinese Medicine and Bachelor of Science (Hons) in Biomedical Science (JS2410) and Bachelor of Pharmacy (Hons) in Chinese Medicine (JS2420)) are listed in the website: https://admissions.hkbu.edu.hk/ug/jupas_chineserequirement

Note 2: Equivalences to Level 3 in HKDSE English Language are listed in the website:

https://admissions.hkbu.edu.hk/ug/jupas_eng_requirement

Note 3:

- One of the elective subjects must be Category A subjects excluding Extended Part of Mathematics (Module 1 or Module 2). Another elective subject can be all Category A subjects including Extended Part of Mathematics (Module 1 or Module 2).
- Individual programmes may consider Category B subjects (Applied Learning) with "Attained with Distinction (I)" or above and/or Category C subjects (Other Languages) for fulfilment of the second elective requirement
- Category B subjects under the study area of "Applied Learning Chinese" are recognised as an alternative Chinese language qualification for non-Chinese speaking students. These subjects are not for fulfilment of the second elective subject requirement.
- In general, the scores for Category A subjects are converted as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1
- The scores for Category B subjects are converted as follows:
Attained with Distinction (II) =4, Attained with Distinction (I) =3
- The scores for Category C subjects are converted as follows:

HKDSE Category C Subjects	Conversion Scores		
	7	5.5	4
Japanese	N1	N2	N3
French, German and Spanish	C1, C2	B1, B2	A2
Korean	Level 6	Level 4, 5	Level 3

Note 4: "Attained" in Citizenship and Social Development (CSD) will not be included in the admission score calculation. Applicants with Level 2 or above in Liberal Studies subject attained in 2023 or before would be accepted in lieu of CSD for fulfilling the GERs. Following the handling of CSD, results of Liberal Studies subject would not be given any score in score calculation starting from the 2024 entry. Remarks on admissions score: Please refer to the following link for the updated score calculation and subject weights of our programmes for 2025 entry:
https://admissions.hkbu.edu.hk/ug/jupas_weighting

Calculation of scores for applicants with more than 1 sitting in HKDSE Examination

HKBU accepts combined results and will count the best results for meeting the entrance requirements and for the calculation of admissions scores.

Programme Entrance Requirements

Same as General Entrance Requirements

Notes for elective subjects:
